CR-SE Framework
A Guided Tour
Please Join Me
Participants will have a broad understanding of the rationale for each principle of the CRSE Framework.

Participants will draw on today’s experience authentically and intentionally create culturally responsive environments.
Tour Overview

The Culturally Responsive-Sustaining Education Framework:

What is it?
Why was it created?
A deposit of knowledge, experience, beliefs, values, actions, attitudes, meanings, hierarchies, religion, notions of time, roles, spatial relations, concepts of the universe, and artifacts acquired by a group of people in the course of generations through individual and group striving. (Samovar and Porter)
The New York State Education Department (NYSED) has come to understand that the results we seek for all our children can never be fully achieved without incorporating an equity and inclusion lens in every facet of our work.

**2018**

NYS Board of Regents commissioned that a framework to support districts in creating culturally responsive learning environments be developed.

**2021**

Board of Regents releases Framework on Diversity, Equity, and Inclusion in New York’s Schools: A Call to Action

Board communicates its expectations for schools regarding diversity, equity, and inclusion.
FOUR PRINCIPLES OF THE CR-S

Welcoming and Affirming Environments
A space where people can find themselves represented and reflected, and where they understand that all people are treated with respect and dignity.

High Expectations and Rigorous Instruction
Are academically rigorous and intellectually challenging, while also considering the different ways students learn.

Inclusive Curriculum and Assessment
Provides the opportunity to learn about perspectives beyond one's own scope.

Ongoing Professional Development
The CR-S framework helps educators create student-centered learning environments that:

➔ affirm racial, linguistic and cultural identities;
➔ prepare students for rigor and independent learning,
➔ develop students’ abilities to connect across lines of difference;
➔ elevate historically marginalized voices;
➔ and empower students as agents of social change.
ACADEMIC MINDSETS

I belong in this academic community

My ability & competence grow with my effort

I can succeed at this

This work has value for me
FIRST STOP

Welcoming and Affirming Environments
What are a welcoming and affirming environments?
We all operate from a set of cultural frames of reference. The challenge is that if we routinely interpret other people’s actions solely through our personal cultural frames, we run the risk of misinterpreting their actions or intentions.

– Zaretta Hammond Culturally Responsive Teaching and the Brain
Being responsive to diverse students’ needs asks teachers to be mindful and present. That requires reflection...The true power of culturally responsive teaching comes from being comfortable in your own skin because you are not a neutral party in the process. You can never take yourself out of the equation.

— Zaretta Hammond Culturally Responsive Teaching and the Brain
The Tree Analogy
At our cultural roots we develop our tacit knowledge and unconscious assumptions that govern our worldviews.

- concepts of self
- definitions of kinship
- spirituality/concepts of higher power
- notions of fairness
- preferences for competition or cooperation
- relationships with nature
CR-S Guidelines for Welcoming and Affirming Environments

- I belong in this academic community

STOP #2

High Expectations and Rigorous Instruction
High expectations and rigorous instruction prepare the community for rigor and independent learning.

The environment is academically rigorous and intellectually challenging, while also considering the different ways students learn.

Instruction includes opportunities to use critical reasoning, take academic risks, and leverage a growth mindset to learn from mistakes.

Messages encourage positive self-image and empower others to succeed.
What do you want me to do?

We never did this in class.

What page can I find the answers on?

Based on the evidence, my claim is _____.

Is this important?

I know where I can find the resources I need.

I can try this strategy.

I agree with you because...

THIRD STOP

Inclusive Curriculum and Assessment
Inclusive curriculum and assessment elevate historically marginalized voices. It includes opportunities to learn about power and privilege in the context of various communities and empowers learners to be agents of positive social change. It provides the opportunity to learn about perspectives beyond one’s own scope. It works toward dismantling systems of biases and inequities, and decentering dominant ideologies in education.
We all operate from a set of cultural frames of reference. The challenge is that if we routinely interpret other people’s actions solely through our personal cultural frames, we run the risk of misinterpreting their actions or intentions.
